

VILLA REAL SUMMER NEWSLETTER - 2023

S2A

This term S2A has been continuing Outdoor Education, visiting familiar and new venues. One of the pupil's favourite visits was to Hexham where we visited the Abbey and the river.

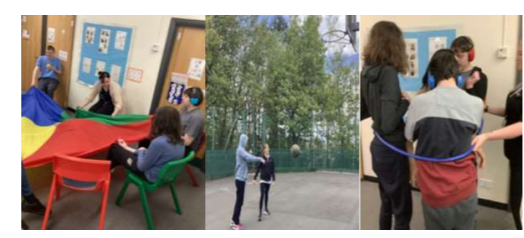

Pupils explored the Abbey and looked inside and out at the architecture and familiar aspects of a church; font, pews and altar.

After their visit they went to Tyne Green where they carried out a walk looking at what they could see from the riverbank and took photographs to look at again in class. All enjoyed finishing the day with a short session in the park, what a fantastic day!

S3A

Students in S3A have excelled in all areas this year. We are especially proud of our teamwork and trying new things. S3A has shown a real passion for learning and wanting to improve and challenge ourselves. We have enjoyed and thrived in movement this year and have shown great enthusiasm for every task. Well done boys! You have had a busy year but have smiled and laughed throughout. We all wish Jack the best of luck as he leaves us to go to college. Have a lovely summer break and we will see you in September for another brilliant year!

HEADTEACHER COMMENTS

Thank you all for sharing your gorgeous children with us for another year. It is with sadness we say "goodbye and good luck" to Glen Harrison and Jen Wickham who go to join Louise at Hexham. We wish Nicole Martin well as she leaves to become a social worker. We wish Paula Emmerson the very best as she retires. We also send all the luck in the world to Leah Sayers and Jack Youern as they move on to college.

In September we will have a number of new staff including Alex Morris, Assistant Headteacher and Sarah Phillips, class teacher.

Have a lovely summer and we can't wait to see you back on Wednesday 6th September.

With kind regards,
Jill Bowe 

OTHER NEWS

In May we were very happy and proud to welcome Paralympian champion athlete Stephen Miller when he visited school. The children loved meeting him and joining in his sports sessions. It was incredibly inspiring and both Stephen and our children really enjoyed the day! We would like to thank Stephen for giving his time to our school.

This term we have taken delivery of our new school minibus which was purchased with funds raised by the VRSA and supported by Esh Construction.

On July 4th we held our Summer School Fair which was very successful. The children had fun making items to sell at the fair for Enterprise Week. We raised a total of £1,291.15 – many thanks to the VRSA for the organisation involved.

S2CE

S2CE have been working really hard in our school allotment this term. Together we have weeded and prepared the raised beds for all of the classes to plant their produce. We have been supported by Groundwork NE.

We are really looking forward to seeing everything grow and tasting the fruits of our labour.

S1CE

S1CE had another busy and action packed half term. We went on two educational visits; we took the train to Newcastle. First, we had lots of fun in the Life Science Centre exploring the life of the astronauts in the International Space Station. Then we visited the Gurdwara Sri Guru Singh Sabha, the Sikh temple in Newcastle where we experienced an inclusive prayer with live music and tasted the very spicy but delicious food in the community kitchen. We have learned a lot about this spiritual and generous religion and how they are serving the community around them. This term we also worked with Groundwork NE who supplied the school with all the resources to create beautiful flowerpots to sell on the Summer Fair. Our students also worked as a team on our Enterprise project, and we celebrated Summer Solstice Day with the rest of the school.

GOVERNOR COMMENTS

We have been thoroughly delighted this term to come into school to monitor "pupil voice" where we hear from pupils what they think about various areas, from whether we have enough books in school, to what have you learnt in RE, or can you stay safe online? Sometimes it's a meeting face to face, or a survey or quiz where staff can help.

Our new governors this year have been coming into school with us and learning the role, and I thank all staff, governors, parents and pupils for your hard work over the year. We look forward to seeing (most of) you in September.

Suzanne Bailey

EYFSA

In EYFSA this term, we have been very busy! Our topic has been The Seaside. We have had fun in the sun exploring water, filling and counting how many small jugs fill a large jug. Our sensory story is "Way Down Deep in the Deep Blue Sea". We have explored all of the animals in the ocean and finding them in the sand.

In music we have been playing instruments along to the Ocean Jam and doing the actions. In Science we have been reading "The Very Hungry Caterpillar". We enjoyed looking at the different fruits, halving them and eating them.

P1A

During Computing, this term in P1A we have been looking at BeeBots and how we can turn them on/off and move them forwards and backwards

During Science, our topic was 'On Safari' so we have been looking at the animals in our local environment, especially invertebrates!

In PE this term, our theme was athletics. We have been looking at balancing, jumping and running.

In PSHCE, we have been looking at different careers, especially police officers. We were very fortunate when someone from the police department came into our class to talk to us and let us try on their uniform too.

During Literacy, we have been exploring a new book called 'A Good Place'. We have: looked at the characters of the story, interacted with sensory props and some of us have been using symbols to comment and describe characters too.

Over this term it was the summer solstice. We had lots of fun; building blocks, making crowns, painting stones and trying new food and drinks. It was such a fun day!

P2A

P2A have really enjoyed our set text 'Shrek' by Jane Farrall. We loved the fact that it is an eBook as we could access it on the whiteboard and on laptops. Our favourite part was when Shrek brushes his teeth with slime - we especially enjoyed exploring the slime prop as part of a sensory story.

P2CE

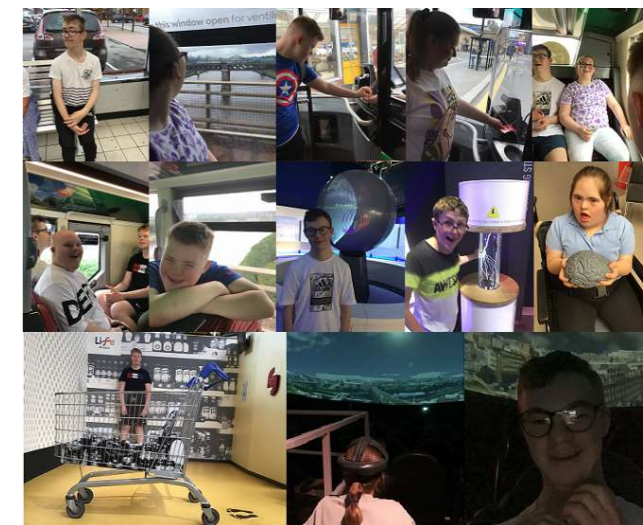

In P2CE we were very excited to learn about and play the cello; we all had a turn and made lots of different sounds. We have all enjoyed exploring and finding mini beasts. We have enjoyed the lovely sunshine and being outdoors, playing in the paddling pool, on the swing, planting potatoes in the allotment and creating new dishes in the mud kitchen. During the summer solstice celebrations, we made dreamcatchers, decorated rocks and experienced some new tastes. We have had great fun during our rebound therapy sessions - lots of smiles and hard work.

We have been visited in class by Able Assist dogs, they sat so nicely and let us all have a stroke. We had a talk from the police and we got to handle equipment used by the police. A fire engine came to visit the school, we had great fun exploring the fire engine and looking at the different equipment.

S2

This term, S2 had an amazing time exploring space and science at The Centre for Life in Newcastle City Centre. We loved the experience in the Planetarium and the new Wow Zone. 'The Planet Song' that we have sung in class helped us identify different planets and features in the solar system. In the International Space Station, we learnt about the roles and responsibilities of an astronaut. To develop our independent life skills, we travelled on a public bus. S2 really enjoyed the topic 'Out of this World'.

P2

The children have been loving the beautiful weather this term.

We've been discussing sun safety and helping them become more independent by teaching them to change and put on their own socks and shoes. During child safety week, we had some great experiences, including meeting a PCSO named Lauren, seeing a fire engine up close, and even getting to meet a support dog. We learned a lot from these experiences and had a lot of fun!

P3

In Literacy we have continued to show interest in books, identify characters, recall events and write sentences and, for some, write poems.

In Numeracy we have been working on measure, to include developing weighing skills, ordering lengths and using language associated with measure.

In other subjects, we have been learning lots about Judaism and why Moses is so important, making digital art in Computing and exploring magnets in Science.

We have enjoyed lots of Outdoor Education this term to include: rock climbing, kayaking and canoeing. We have also continued to enjoy weekly swimming where we have all made great progress.

S1A

This term in Literacy S1A have been reading the story 'Do You Know That Hollow Empty Feeling' illustrated and written by a local author and friend of the school, Michael Quinlyn-Nixon. Pupils have identified characters, answered questions and made kites just like the boy in the story.

For Numeracy pupils have been working on length and measurement. We explored long and short using play dough and by building train tracks.

Pupils took part in the summer solstice by trying elderflower fizz and painting rocks.

We were also visited by a well behaved assistance dog.

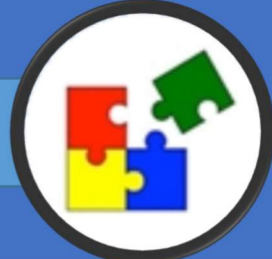

S3

In S3 students have been making boats in Technology, they were set the challenge to make the boats float and be waterproof. We also did a gravity experiment in Science.

We all wish Leah a very happy time at college as she leaves us.
